Additional information

During their review of the draft financial statements, the auditors brought two issues to the attention of the directors.

Issue 1

During the year ended 31 December 2019, M plc had bought a specialised machine. The machine had been designed by M plc and made by an overseas manufacturer. The following costs had been incurred:

	\$
Design	7 000
Manufacture	26 000
Installation	3 000
Repair and maintenance	4 000

M plc had capitalised the manufacture cost, \$26 000, and all other costs were charged to the income statement. The company depreciates the machinery at 25% per annum using the straight-line method. A full year's depreciation is charged in the year of purchase.

Issue 2

M plc owns a warehouse. It was purchased on 1 January 2015 at a cost of \$150 000. It has a useful life of 25 years with no expected residual value. Its carrying value had been included in the total value of non-current assets, without taking into account its fair value of \$100 000 and value in use of \$112 000.

(c) Define the term 'impairment of assets'.

.....

.....

.....

.....

.....

.....

..... [4]

(d) Explain how the directors should adjust the draft financial statements to account for:

(i) issue 1

.....
.....
.....
..... [2]

(ii) issue 2.

.....
.....
.....
.....
.....
..... [3]

(e) Calculate the adjusted profit for the year **after** considering issue 1 and issue 2.

Section B: Cost and Management Accounting

Answer **all** questions.

5 Read Source B1 in the Insert.

(a) Calculate the total budgeted profit for August.

.....

.....

.....

.....

..... [2]

Additional information

Actual output and sales for August were 4300 units, selling for \$80 per unit.

Actual costs for August were as follows.

	\$
Total direct materials cost (22 790 kilos)	95 718
Total direct labour costs (12 040 hours)	150 500
Fixed overheads	43 600

(b) Calculate the actual profit for August.

.....

.....

.....

.....

.....

..... [1]

(c) Calculate the following variances:

(i) sales price variance

.....

.....

.....

.....

(ii) sales volume variance (use standard profit margin per unit)

.....

.....

.....

.....

(iii) labour rate variance

.....

.....

.....

.....

(iv) labour efficiency variance

.....

.....

.....

.....

(v) fixed overhead expenditure variance

.....

.....

.....

.....

(vi) fixed overhead volume variance.

.....

.....

.....

.....

[12]

Additional information

After analysing the direct materials variances, the directors of T Limited plan to purchase raw materials from a new supplier who provides better quality raw materials but at a higher price and with no trade discount.

- (e) Advise the directors whether or not T Limited should change to the new supplier. Justify your answer.
