Evidence F

Overview of strategic priorities

Promoting growth in mature and emerging markets will be a key strategic priority for *Henkel*. The company will launch a range of targeted initiatives to create superior customer and consumer engagement. This will strengthen its leading brands and technologies, develop exciting innovations and services, and capture new sources of growth. 5

Henkel will also complement its strategic focus on promoting growth in its existing core businesses by capturing potential new sources of growth. One example would be entering into new markets. Strategic takeovers will help to build *Henkel's* product portfolio, strengthen its position in the marketplace, and expand into new markets.

In order to support its growth ambition, *Henkel* will increase its investments and raise capital expenditure from around €2bn in the period from 2013 to 2016 up to €3bn over the period from 2017 to 2020. 10

While *Henkel* aims to increase organic growth, takeovers and mergers will be an integral part of the company's strategy to further strengthen its product portfolio.
