Pearson Edexcel International GCSE Monday 3 Jul		Number	•	Candidate Number		
Afternoon (Time: 1 hour 30 minu	ıtes)	Paper Re	eference 4	EC1/02R		
Economics Level 1/2 Paper 2: Macroeconon						
You do not need any other ma	terials.			Total Marks		

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
 - there may be more space than you need.
- Calculators may be used.
- You are advised to show all your working out with your answer clearly identified at the end of your solution.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
 - use this as a guide as to how much time to spend on each question.

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

A new UK report identified the urgent need to reduce pollution from vehicles and provide more open spaces and parks.

Researchers looked at the impact on health when participants walked for two hours on London's busy Oxford Street. This was then compared to those walking in the nearby large open space of Hyde Park.

The results showed that people walking in the park performed better. The air pollution from vehicle fumes largely removed the health benefit from the exercise in Oxford Street. The report suggests that people should avoid walking in busy streets and should instead walk in parks or open spaces.

> (Source: adapted from http://edition.cnn.com/2017/12/05/health/ exercise-polluted-urban-streets-intl/index.html)

(g) With reference to the data above and your knowledge of economics, assess whether the government should provide more parks and open spaces.

Figure 3

In 2017, unemployment in South Africa reached its highest level in 13 years at 27.7%. Concerns have been expressed about the very high levels of youth unemployment and the social problems this might cause. Statistics show that 39% of all unemployed South Africans have never worked before and for young people this figure is even higher, at 60.3%.

(e) With reference to the data above and your knowledge of economics, assess the

impact of high rates of unemployment on a country such as South Africa.	(9)

Following a trip to Asia in 2017 by US President Donald Trump, China has reduced tariffs from 17.3% to 7.7% on over 200 consumer products. These include pharmaceuticals, food, health supplements and clothing.

Many multinational corporations may have major financial gains. Nestle's sales could increase by 15% or \$18.7bn because of the reduction in tariffs. Procter & Gamble, will also benefit from tariff reductions on items ranging from shampoos to electronic toothbrushes.
